Arthur S. Levine

Arthur S. Levine, MD, is senior vice chancellor for the health sciences and John and Gertrude Petersen Dean of the University of Pittsburgh School of Medicine. In partnership with UPMC, one of the largest academic medical centers in the nation, Levine works to ensure that health care delivery, biomedical research, and health sciences education remain strong and suited for future growth at Pitt. During his tenure, the University became one of the top 10 U.S. institutions receiving National Institutes of Health (NIH) funding. Today, Pitt ranks fifth in NIH research funding.

Levine directs efforts to invigorate and expand the research portfolios of Pitt's six health sciences schools. The University has launched a number of multidisciplinary research centers and institutes in recent years, including the Brain Institute, Drug Discovery Institute, Center for Vaccine Research, and Institute for Precision Medicine. In 2006, the University was among the first 12 institutions selected by NIH to receive a Clinical and Translational Science Award. This \$83.5 million grant (renewed in 2011 and 2016) established Pitt's Clinical and Translational Science Institute, which works across the University to speed the translation of research discoveries into clinical practice.

As dean of the School of Medicine, Levine spearheaded the addition of the Longitudinal Research Project to the medical curriculum, an innovative requirement that has since been adopted by other top medical schools. These independent, mentored research projects are designed to prepare students by introducing them to rigorous scientific investigation while instilling critical thinking, creativity, and persistence.

The School of Medicine has added 10 academic departments during Levine's tenure: the Departments of Structural Biology, Immunology, Biomedical Informatics, Plastic Surgery, Physical Medicine and Rehabilitation, Urology, Cardiothoracic Surgery, Critical Care Medicine, Developmental Biology, and Computational and Systems Biology.

Prior to his 1998 appointment at Pitt, Levine had a long, productive career at NIH, first at the National Cancer Institute and then as scientific director of the Eunice Kennedy Shriver National Institute of Child Health and Human Development.

Throughout his career, Levine has conducted molecular biologic research. He and colleagues performed the first physical and genetic mapping of the mammalian tumor virus SV40 and significantly advanced scientific understanding of naturally occurring viral recombinant DNAs. Levine continues to direct his own laboratory, which focuses on neurodegenerative diseases like Alzheimer's and other dementias.

Levine has written more than 270 scientific articles and is a member of several leading research societies, including the Association of American Physicians. His honors include the Meritorious Service and Distinguished Service medals of the U.S. Public Health Service, the Surgeon General's Exemplary Service Medal, the Distinguished Alumnus Award and an honorary Doctor of Humane Letters from the Chicago Medical School, and an NIH Director's Award.

A graduate of Columbia University, Levine majored in comparative literature and edited *The Columbia Review*. He received his MD from the Chicago Medical School, now part of the Rosalind Franklin University of Medicine and Science. He completed a residency in pediatrics and a fellowship in hematology and biochemical genetics at the University of Minnesota Medical Center in Minneapolis.

ALMA MATER

Alma Mater, wise and glorious,
Child of Light and Bride of Truth,
Over fate and foe victorious,
Dower'd with eternal youth.
Crowned with love of son and daughter,
Thou shalt conquer as of yore.
Dear Old Pittsburgh, Alma Mater,
God preserve Thee ever more.

THE NATIONAL ANTHEM

Oh, say! can you see by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air
Gave proof thro' the night that our flag was still there;
Oh, say, does that Star-spangled Banner yet wave
O'er the land of the free and the home of the brave?
